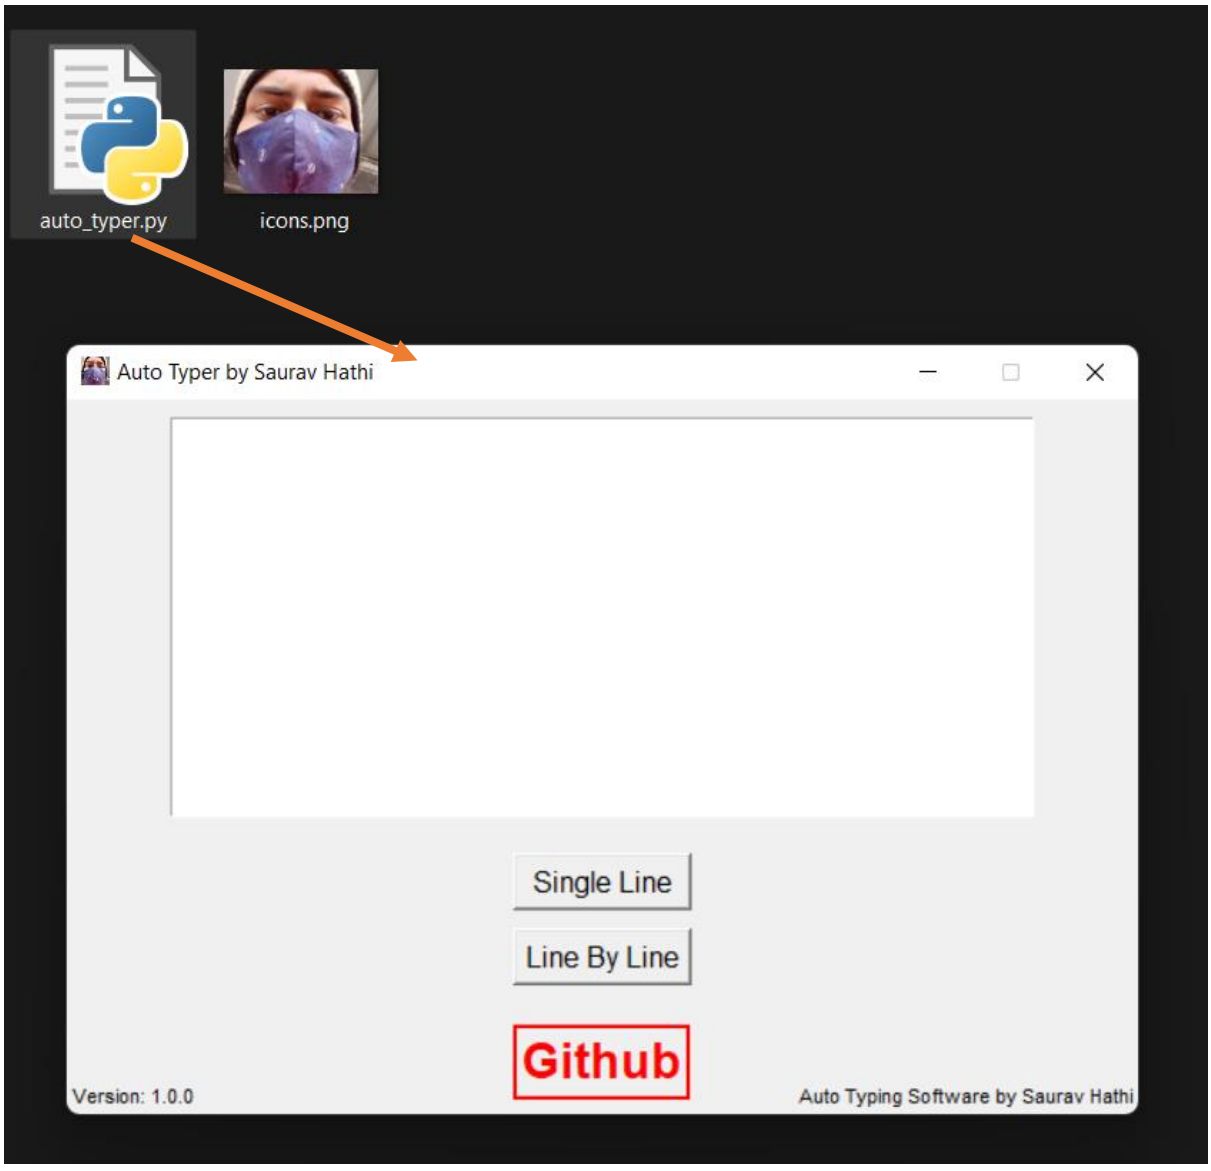
Without using notepad or removing spaces.

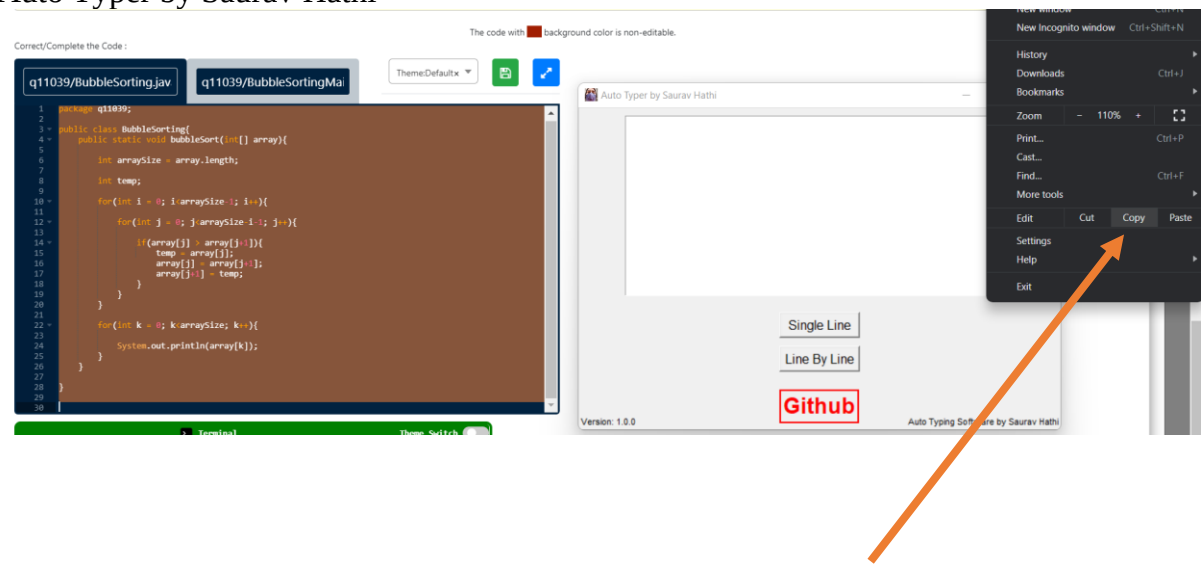
1. First open auto_typer.py file



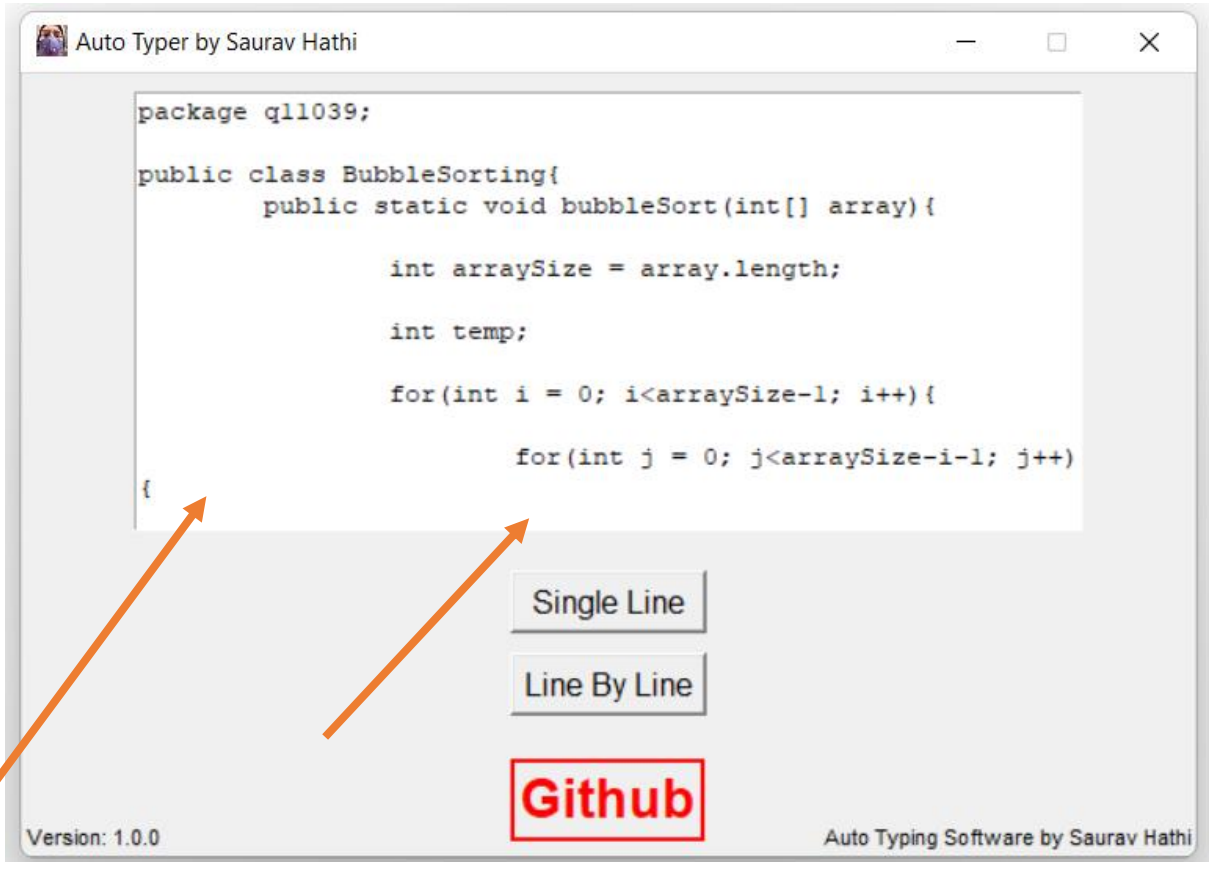
2. Now open your platform from where you want to copy For example – My class -> Select the text you want to copy

3. Now go to Chrome browser option for copy

Auto Typer by Saurav Hathi



4. Paste the text in Box



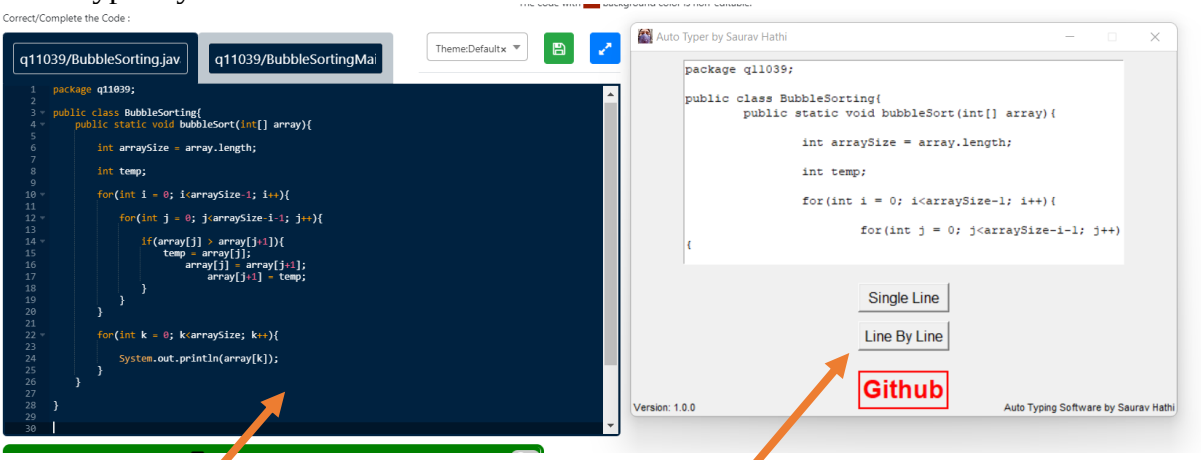
5. Click on Line-by-Line/Single-Line button and within 3-4 seconds set your cursor where you want to paste.

   Or

   For in single line use **ctrl+8**
   For in line by line use **ctrl+9**

Note: if your click the single line button pls remove the comment line before paste

Auto Typer by Saurav Hathi



Automatically it will paste.

Thank You!
